denniscolbath@hotmail.com | (231)330-6087 | Petoskey, MI

## EDUCATION

NORTH CENTRAL MICHIGAN COLLEGE | COMPUTER SCIENCE

Petoskey, MI

FREECODECAMP | FRONTEND DEVELOPMENT

Petoskey, MI

## WORK EXPERIENCE

REEDS ON THE RIVER | WEB DEVELOPER

Petoskey, MI

- Designing a business website for a client using WordPress in order to hand it over to them at end stage.

ODAWA CASINO RESORT | TABLE GAMES DEALER

Petoskey, MI

- Operated table games in a fast paced, high energy environment. Dealt cards, played house hands, determined winners, handled large amounts of money, detected cheating, and solved customer disputes.

CIRCUIT CONTROL CORP | QUALITY ASSURANCE

Petoskey, MI

- Manufactured terminals and electrical components for vehicle wiring harnesses. Inspected parts using blueprints and measuring with micrometers, microscopes, and smart-scopes for quality assurance.

PC BUILDING

## PROJECTS

REEDS ON THE RIVER WEBSITE | WORDPRESS, BASIC CSS, SERVER HOSTING [www.reedsontheriver.com](http://www.reedsontheriver.com)

Designed and updated a website using WordPress for future usability by the client.

ROULETTE CALCULATOR | HTML, CSS, JAVASCRIPT

<https://github.com/prongsy/roulettecalc>

Designed a roulette calculator for the casino game roulette that quickly adds up straight up, split, corners, streets, double streets, and basket bets. You input the amount of chips on that is on each location, hit calculate and it gives you the sum plus the original bet.

BK MINECRAFT SERVER PAGE | REACT, BOOTSTRAP

<https://github.com/prongsy/bkmcserverpage>

Created a page with ReactJS and Bootstrap that takes a Minecraft API and displays server information in real time including message of the day, online status, player count, and player online names list. Also uses a DynMap embed and was quickly styled using Bootstrap for quick use.

PORTFOLIO PAGE | HTML, CSS, BOOTSTRAP, JAVASCRIPT, PHP

[denniscolbath.com](http://denniscolbath.com)

Created a responsive portfolio web page. Includes a projects section, this resume, and a contact form. Links to both the GitHub repositories and working webpages for each project. Has a short overview of skills section with a viewable resume. Includes a contact form using PHP to send emails to my email.
